

# Tavy District u3a Car Sharing Guidance

Members attending Tavy District u3a events are responsible for their own costs and cannot claim mileage from Tavy District u3a. The only exception is for members travelling on official u3a business.

Car sharing is encouraged on environmental grounds and to allow members who do not drive to be able to attend events that involve travelling.

It is up to drivers to decide whether they wish to accept passengers' contributions to the cost of the journey. They may choose not to accept contributions at all, to accept mileage contribution on a per mile basis, to accept a lump sum proportionate to the length of the journey, or to receive a contribution in kind, e.g., a cup of coffee, lunch, or parking fee.

Any contributions from passengers should be agreed before the start of the journey.

Where mileage contributions are offered, Tavy District u3a suggests a maximum of 30p per mile per vehicle to be shared between all the occupants of the vehicle including the driver.
